Attachments:

Page 2, Trust, first bullet - I see routine misuse of computers (email, internet and unauthorized screen saver files).

Page 4, Legality, bullets 2-4 - I am not convinced we are in compliance regarding OSHA 1910.119.

I'm not sure the first item is all that significant. But the second could be very big. It is not restricted to our area but rather a site wide concern.

David

I understand that some of you can not get to this page by the link that I provided. Try to enter this address from the BP home page.

Importance: High

To All,

I would like for each of you to review the document below titled CERTIFICATION 2003 - ETHICS FUNDAMENTALS FOR LEADERS. Once complete I would like two things from each of you. First tell me what you feel are the most significant ethical risks currently faced by our team. Secondly, I would like to know of any specific occurrences where there may have been any doubt whether the expectations of the ethical conduct policy has been met, together with subsequent action(s), if any, have been put in place.

Ray
